

FREE PDF documents analyser

Results for file.pdf (2 pages):

All fonts have to be embedded in your PDF file even if it's only available for an online version. We insist that the quality of the digital images should have an original high-resolution, at least 300 dpi for figures that will be published in a paper version and at least 150 dpi if it's only an online version.

If you use Acrobat Distiller or Acrobat PDF virtual printer to create your PDF file, select one of the high print quality job options proposed by Adobe suitable for reliable viewing and printing of documents as *Print quality*, *Press quality*, *High quality*, etc. All options will be automatically suitable.
